

# MULBERRY

Kick off the holiday season with this deep and regal purple.

## MAKE A STATEMENT

Designed by Studio Giancarlo Valle, this contemporary dining room in New York combines mulberry walls with a burlled-oak table, mahogany chairs and sculptural objets. Overall, the aesthetic is layered, warm and inviting.

## WHY WE LOVE IT

Mulberry embraces a duskier decorating style but still offers a hint of festive flair. This moody, sophisticated purple has red undertones and is a refreshing alternative to the deep greens and blues ruling interiors lately. Embellish holiday garlands with mulberry ornaments, then mix in some gold baubles for an elegant contrast. A deep berry-hued runner will dress up your dining table for the season, or make the shade a year-round staple by adding mulberry rugs, vases or throw pillows to your rooms.

***“AS AN ALTERNATIVE TO BLACK, BLUE OR DARK GREEN, MULBERRY ADDS WARMTH AND SOPHISTICATION TO A ROOM. IT’S AN UNEXPECTED SHADE WITH DRAMATIC EFFECTS”***
